Release Preview

Preview the API changes

Explore upcoming changes in the Agile Process Teams, version 2026.4.0 release. To learn more about the Process Orchestration for Empowered Teams, solution version 9.0.0 that provides the user interface for this app, see Preview the user interface changes.

Release information

This document describes the TraceLink capabilities included in the Agile Process Teams, version 2026.4.0 app release, which is available on Validation on 19 Nov 2026 and Production on 03 Dec 2026.

The following apps are impacted by this release and will be updated to the version listed:

- Agile Process Teams, version 2026.4.0

  Solutions supported by this app version:

  - Process Orchestration for Empowered Teams, solution version 9.0.0

The features below are in order of functional relevance (i.e. the typical order in which a user executes a function or task).

⚠ Use this preview for planning and impact analysis. All information in this preview is subject to change before the final release date. The final documentation is available in conjunction with the Validation release date. The final documentation might include resolved and known issues, if applicable.

Revisions

Date	Revision	Description
22 Oct 2026	01	Initial version.

API features

There is no new or updated API functionality included in this release.

System features

The following new or updated system functionality will be included in this release.

Create and Manage Knowledge Bases

This feature includes updates to TraceLink's internal APIs that are leveraged by the UI to deliver the Create and Manage Knowledge Bases feature in the Process Orchestration for Empowered Teams, solution version 9.0.0 release.

Impact analysis

The impacts for this feature are the same as the Create and Manage Knowledge Bases feature in the Process Orchestration for Empowered Teams, solution version 9.0.0 release.
