### Status of the connection:

**Not Started** - TraceLink is missing information for the partner and is following up (e.g. GLN or email address) or the partner is not yet ready to move forward

**In Progress with TraceLink** - TraceLink is missing information for the partner and is following up (e.g. GLN or email address)

**In Progress with Vendor** - TraceLink's work is complete and the partner has been contacted with the relevant information to begin sending you the data.

**Ongoing TL Project** - There is an active TraceLink Implementation with this vendor and will be completed when this vendor is ready

**Live** - Partner is finished and actively sending data.

**Cancelled** - This company has stated that you do not have a direct relationship and that this connection should not be established.

Please contact the vendor if you think this information is incorrect.

**Will Not Send** - This company has stated that they won't or can't send EPCIS compliance data. Please contact the vendor if you think this information is incorrect.

**Outreach Opt Out** - This company has asked not to be contacted by TraceLink's outreach process. Please contact the vendor directly to determine the next steps.

A) Cardinal, Cencora, McKesson - These companies have requested that customers should contact their wholesaler representative directly and provide them with GLNs and Wholesaler Account Numbers for each of your locations.

B) See <company> - This company uses a 3PL to send their data and the Live status will be listed under the 3PL company name.

C) Live - Partner is finished and actively sending data.

\*if you are not receiving the report, please send an email to [host@tracelink.com](mailto:host@tracelink.com) to subscribe to receive the DSCSA Connection Status Report

If you have any questions on the report or feel that a status or field is incorrect, please email [verification@tracelink.com](mailto:verification@tracelink.com) and you will receive a reply.
