Release Summary

What's new in the APIs

Explore what's new in the Agile Process Teams, version 2026.1.0 release. To learn more about what's new in the Process Orchestration for Empowered Teams, solution version 6.0.0 that provides the user interface for this app, see [What's new in the user interface](#).

Release information

This document describes the TraceLink capabilities included in the Agile Process Teams, version 2026.1.0 app release, which is available on Validation on 26 Mar 2026 and Production on 23 Apr 2026.

The following apps are impacted by this release and will be updated to the version listed:

- Agile Process Teams, version 2026.1.0

Solutions supported by this app version:

- Process Orchestration for Empowered Teams, solution version 6.0.0

The features below are in order of functional relevance (i.e. the typical order in which a user executes a function or task).

 This Help Center is subject to change based on the deployment of the release. In the event of changes, the Help Center will be updated within one week of release deployment. Deployment completion can be confirmed in the TraceLink Release Notice email.

Revisions

Date	Revision	Description
26 Feb 2026	01	Initial version.

Date	Revision	Description
26 Mar 2026	02	<p>The following updates have been made since the previous revision was distributed:</p> <ul style="list-style-type: none"> • 1 issue is added to Resolved issues. • 0 issues are added to Known issues. • The Store Documents in the Document Management Repository feature is removed from the Process Orchestration for Empowered Teams, solution version 6.0.0 release.

API features

There is no new or updated API functionality included in this release.

System features

The following new or updated system functionality will be included in this release.

Enhancements to Comment Sorting and Visibility Control

This feature includes updates to TraceLink's internal APIs that are leveraged by the UI to deliver the [Enhancements to Comment Sorting and Visibility Control](#) feature in the Process Orchestration for Empowered Teams, solution version 6.0.0 release.

Impact analysis

The impacts for this feature are the same as the [Enhancements to Comment Sorting and Visibility Control](#) feature in the Process Orchestration for Empowered Teams, solution version 6.0.0 release.

Enhancements to Notifications for List and Work Item

This feature includes updates to TraceLink's internal APIs that are leveraged by the UI to deliver the [Enhancements to Notifications for List and Work Item](#) feature in the Process Orchestration for Empowered Teams, solution version 6.0.0 release.

Impact analysis

The impacts for this feature are the same as the [Enhancements to Notifications for List and Work Item](#) feature in the Process Orchestration for Empowered Teams, solution version 6.0.0 release.

Resolved issues

Agile Process Teams, version 2026.1.0

The following issues are resolved in this release. The prefixes are for internal TraceLink tracking purposes and do not mean anything to customers.

ID	Interface	Issue Description
TL-99501: Compliance exceptions fail via inbound email when the description is longer than 1024 characters	API	Creating a compliance exception by sending an email fails if the description exceeds 1024 characters. This problem is fixed by increasing the character limit for description to 10000 characters. This issue is resolved.

Known issues

Agile Process Teams, version 2026.1.0

There are no known issues in this release.
